Unique (not a corporate feel)

Memories of good times

A great place to meet people / friends

Unique "Keys style"

Old Florida beachy

Live Music

Open Air Venue

Outdoor Seating (shaded)

Inexpensive food (affordable)

#### **What questions do you want answered about the Dania Beach Grill?**

- When will the grill be back up and running?
- Did the City close to force them out?
- Can the building be designated historic?
- What does a new proprietor need to do to take over management?
- Why did the City wait so long to address the situation as it's been like this for quite some time?
- City owns the building and knew it was in disarray and dangerous. Why as a landlord, why didn't the City correct the issues? Why were they left for so long without the owner a/k/a City addressing them?

- How such disrepair could have gone on for so long and it took until now to issue a list of violations? Seems like a lot of oversight.
- What were the “unsafe” conditions?
- What are the City’s Future Plans?

**What do you think should happen with the Dania Beach Grill now and in the future?**

- Should be a Historical site as it’s a Landmark and means a lot to the public.
- Repair, restore, or rebuild but with the same vibe (outdoor, beachy, rustic/casual). Same atmosphere. Be able to show up in bathing suit, flip flops, kids, and dogs (pet friendly).
- Make it like a Tiki Bar. (More appealing - Not a concrete bldg.)
- Not a fancy place with high prices.
- Keep the Old Florida look (beachy). (Remain open air with better lighting around).
- Have good food and drinks (full liquor license for fabulous frozen drinks.)
- Some indoor seating with air conditioning.
- Second floor, where people can see the ocean while they eat, drink and listen to music.
- Outdoor aspect and only have a small inside for restrooms and a kitchen. Large beach front area to sit, small stage for live music.
- Retain the local crowd and not price them out of their favorite bar.
- Improve hours for live music. Allow after 9 pm and stop catering to the condo behind the bar. Add in sound wall or other amphitheater type stage to help the noise direction.
- Move further east to the sand, so that local residents can enjoy a view of the water and have the local ambiance.
- Expand the size, larger deck and stage
- Better Bathrooms
- Offer Healthier Food Options (Juice Bar)
